

SUMMER RECREATION AND ENRICHMENT PROGRAM

Caring and Competent Leadership
All staff certified in CPR and First Aid
Indoor and Outdoor Fun and Learning

June 26 – June 30 HOME TOWN EXPLORERS

Staying at home can still include new adventures! Treasure hunts, prizes and hometown cooking too. Using globes, maps and our own imaginations, we will explore Lubec and the world beyond!

Field Trip: Hiking with Cobscook Shores
Friday Cook-Something-Up with UMaine Cooperative Extension

JULY 3 AND 4 OFF FOR THE HOLIDAY!

July 5- July 7 DOWN ON THE FARM

Let's dig into what it takes to be a farmer; from goats to greens, garden to greenhouse- let's learn more about where our food comes from.

SWIMMING at UMM Pool!
FIELD TRIP: Smithereen Farm
FRIDAY Cook-Something-Up with UMaine Cooperative Extension

July 10 – July 14
MAD SCIENCE CAMP

Interested in things that bubble and fizz? What does science have to do with cooking? Put on your lab coat and join us as we put the “Sha-zam!” into Science

SWIMMING at UMM Pool
FIELD TRIP with Cobscook Shores
FRIDAY COOKING-Something-Up with UMaine Cooperative Extension

July 17 – July 21
UNDER THE SEA

Downeast Maine is famous for its beautiful lighthouses, fishermen (and women) and marine life of all kinds. Whale watching, swimming, special expert guests and fun crafts that teach us all more about Life below the waves!

SWIMMING at UMM Pool
GUEST TEACHER: Downeast Coastal Conservancy
FIELD TRIP: Roosevelt International Park and Mulholland Light
FRIDAY COOKING-Something-Up with UMaine Cooperative Extension

July 24 – July 28
EXPRESS YOURSELF

We all see the world in our own way and this week is dedicated to the artist in all of us- Painting, photography, poetry and more; inspired by nature and created by YOU.

SWIMMING at UMM Pool
FIELD TRIP Cobscook Shores
FRIDAY COOKING-Something-Up with UMaine Cooperative Extension
ART SHOW and CELEBRATION

**July 31 – August 4
Let's Go Green**

This summer, green goes with everything! Let's love and protect our planet- Organic gardening, composting, bugs and animals that are all part of a healthy planet. We will look at alternative power sources and focus on how we can work together to create a better future for Mother Earth.

SWIMMING at UMM Pool
GUEST TEACHER: Downeast Coastal Conservancy
FIELD TRIP: Cobscook Shores
WHALE WATCHING (Weather dependent)

**August 7 – August 11
LOST IN SPACE**

Star gazing, Aliens and Robots galore! Outer Space is closer than ever before; what's it all about and what's out there?
